Satellite TV Antenna

SamyungTV AIX3-series

SamyungTV AIX3-series ensure that reliable, easy access to Satellite TV in digital picture and sound on yacht while sailing or mooring.

SamyungTV AIX3-series consists of a stabilized 39cm(15")~120cm(48") diameter antenna enclosed in an attractive white radome and an ACU(Antenna Control Unit).

The ACU has the operation interface for the communication with SamyungTV antenna via RS232C port.

SAMYUNG ENC, the leader in satellite television, offers a complete line of high-performance SamyungTV antennas to deliver satellite entertainment almost anywhere you go.

SamyungTV antennas aren't just good, they're the best in the existing market.

SamyungTV AIX3-390 and AIX3-450 is designed for power and small yacht. AIX3-390 and AIX3-450 is smallest size and lightest weight. Built in GPS and 3-axis servo stabilization tracking system will be serving you fully stabilized TV channel from the satellite.

SamyungTV AIX3-610 and AIX3-850 provides increased signal reception area at sea and stronger signal reception in inclement weather because the larger dish is able to acquire more of the satellite's signal and increase the antenna gain.

SamyungTV AIX3-Series offers:

Fully Automated System

Auto skew control system /Automatic satellite search and identification

High Quality Antenna

SamyungTV antenna is in the form of a parabola to suite extreme marine environment conditions and to offer the best quality satellite television while in motion

Unsurpassed Dynamic Tracking

SamyungTV's unique tracking algorithm can track satellite signal even in the most extreme conditions, such as heavy storms which creates high waves

Easy Installation and Guaranteed Reliability

Guaranteed reliability through the implementation of modularized design and the usage of strictly proven components

VSAT Antenna

SamyungVSAT VS-series

The Best Solution for Broadband at Sea
Smaller by volume and lighter than standard VSAT antenna

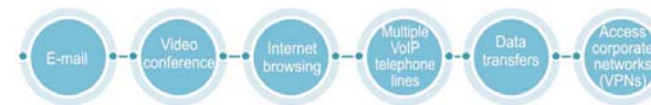

The SamyungVSAT VS-series are the perfect solution for owners of leisure craft, and small commercial as well as large and military vessels worldwide, who desire or require the same Internet experience at sea that they enjoy at home and in the office. SamyungVSAT VS-series antenna will bring lightning-fast broadband connections and simultaneous, reliable telephone service to your vessel at an affordable rate. Best of all, the system's compact design is easy to install and looks great on any vessel.

• Enjoy always-on high speed internet, e-mail, Multiple lines of VoIP Phone, and more with SamyungVSAT VS-series

• SamyungVSAT VS-series-The ultimate satellite communications solution for commercial and military maritime application.

What you can do with SamyungVSAT VS-series antenna

SamyungVSAT VS-Series offers:

Fastest data rates available

Easier and less expensive to install and maintain

Dynamic, gyro-stabilized tracking and military grade quality for outstanding performance and outstanding coverage in the world
